

Best Burning Practices when you must burn

Always use good burning practices to promote efficient burning and prevent excessive smoke: OAR 629-048-0210, 340-264

*Please, also
refer to Open
Burning
Guidelines and
Fire Safety
Rules*

- ◆ Is it an authorized CFD1 burn day?
Call 503-632-0211 to find out.
- ◆ Preparation is critical. Cover your pile and allow material time to dry.
- ◆ Rapid ignition means rapid combustion. Use an LPG weed burner and multiple fire starts on the windward side.
- ◆ Burn a hot fire with adequate airflow for rapid and complete combustion.
- ◆ Burn loosely stacked dry material and restack as necessary.
- ◆ Consider mechanical ventilation fans or leaf blowers to increase the rate of combustion.
- ◆ Consider air curtain burners or forced air incinerators.
- ◆ Be courteous, smoke should not affect others.
