## REGULAR BOARD OF DIRECTORS' MEETING MINUTES November 21, 2022

### ATTENDANCE

Board of Directors: Jay Cross, Chris Hawes, Thomas Joseph, Jim Syring, and Marilyn Wall

Others present: Nick Browne, Steve Deters, Heather Goodrich, Oscar Hicks, Rick Huffman, Genoa Ingram, Jerry Kearney, Ryan Kragero, Sam McCullough, Shawn Olson, Ariel Roberts, Steve Sakaguchi, Josh Santos, Brian Stewart, Mark Whitaker, Doug Whiteley, Matt Wiken, and Stations 4, 6 – Clackamas Fire; Andrew Gordian – Local 1159; Phil Schneider – Sandy Fire.

Other community members and citizens were in attendance. The full video conferencing attendance can be provided upon request.

#### **I. CALL TO ORDER PER ORS 192.610 TO 192.690 ORS 192.650 – The meeting is being recorded.**

President Wall called the meeting to order at 5:00 pm.

#### **II. CHANGES TO THE AGENDA**

No changes.

#### **III. APPROVAL OF THE REGULAR BOARD MEETING MINUTES ON OCTOBER 17, 2022.**

Approved as written.

#### **IV. PUBLIC COMMENT**

None.

#### **V. OUTWARD INCLUSION PRESENTATION – Training Officer Steve Sakaguchi**

Training Officer (TO) Sakaguchi explained that Outward Inclusion was part of a larger professional development project. After extensive research, Arbinger Institute was chosen. In October, they conducted a training session with 35 District personnel. He explained the goals of the training and shared the positive feedback they received. TO Sakaguchi said they would like to move forward to extend the training to the entire workforce as well as incoming personnel.

Director Cross commented that he thought the training was excellent and that everyone did a great job. He thanked Chief Browne for moving forward with this initiative that was very important to the Board.

# Clackamas Fire District #1

Director Joseph asked if the agreement with the Arbinger Institute was for one-time training, or if they will continue to come out and give the training. Does the “Train the Trainer” program mean internal personnel would be conducting the training? TO Sakaguchi responded that there were several options including having the master coordinator come and do the training on-site again, CFD personnel can travel to attend a public training, or the training can be online. They are still working through those options. If someone is a “Train the Trainer,” they are involved in updates and ongoing training. Any recurring training has a cost to access that license.

President Wall said that the training was very worthwhile; she appreciated the positive and open approach.

## VI. BUSINESS – Action required

### **B-1 Request Board Approval of Mark Whitaker as Budget Officer for Fiscal Year 2023-24 – Assistant Chief Brian Stewart**

Assistant Chief (AC) Stewart clarified that the request was amended for the Board to approve CFD’s Chief Financial Officer (CFO) as the Budget Officer. They would like to designate the person by position rather than by name. Also, he would like it to be on an ongoing basis, rather than have it approved each fiscal year. The Board would have an opportunity to review this annually as part of the Board Policy Manual.

Director Cross asked if this followed Oregon law, as he thought they had to name a person. AC Stewart shared that the ORS is laid out in their staff memo. His interpretation is that there is no definition that it needs to be one person. As a special district, they are required to have one person (versus a department).

President Wall interpreted the ORS differently and isn’t sure if they are following it correctly with this request. She suggested that they approve CFO Whitaker for this year and further examine this law, consult with legal, and bring up this request at a later time. She also thought having it be ongoing would make it more difficult for the CFO to assign this duty to one of their employees if they decided to do so.

Directors Syring and Hawes agreed with President Wall.

Chief Browne said they will look further into it. They will amend the request to just CFO Whitaker for this fiscal year.

**Director Hawes made a motion and Director Cross seconded for the Board to approve Mark Whitaker as the Budget Officer for Fiscal Year 2023-2024. Motion passed unanimously.**

# Clackamas Fire District #1

**B-2 Request Board Approval of MDC Purchase – Chief Technology Officer Hicks**  
Chief Technology Officer (CTO) Hicks said the request was as presented in their Board Packet. There were some supply chain issues that changed their original request.

**Director Cross made a motion and Director Hawes seconded for the Board to approve the purchase of Panasonic Toughbooks in the amount of \$145,130.90 from Technology Integration Group. Motion passed unanimously.**

## VII. OTHER BUSINESS

### **OB-1 Board Committee/Liaison Reports Interagency Committee – Director Joseph/Director Syring**

Director Syring reported that there had not been any other interagency meetings since the last Board meeting. However, he wanted to share that Sandy Fire has had three meetings. There are a lot of ongoing discussions regarding the contract for service.

### **Clackamas Emergency Services Foundation (CESF) – Director Cross**

Director Cross reported that the Foundation had recently held its annual auction. He will give the Board more updates at the next meeting after he receives more information about the results of the auction. He shared that Kyle Gorman resigned as the President of CESF. Vice President Jerry Kearney is now the President.

President Kearney shared that he plans to nominate Kyle as an Honorary Trustee at the next CESF meeting. He said that auction attendance was 50% less than in previous years but higher in bidding. They are looking at possibly having another auction or other event during the next year.

### **Future Funding Taskforce – Director Hawes**

Director Hawes shared that they have begun the public outreach on the possible levy. On November 9 and 16 they held community forums. Both went well and received some good questions. They've also had good online participation. Overall, they've had positive feedback regarding a possible levy.

### **OB-2 Board Informational Updates/Comments**

#### **OFDDA Conference – Director Cross**

Director Cross said they had the OFDDA Conference the previous month. He had the privilege of serving on a panel with AC Stewart. AC Stewart said he was impressed with the attendance and participation and thought it was a great conference.

# Clackamas Fire District #1

Director Cross shared that OFDDA and SDAO have partnered together to develop a Fire District Directors Academy. He explained the training and classes. There will also be some classes available on the District's Vector Solutions (formerly known as Target Solutions) software for the Board to take. Director Cross shared how his fellow directors can start taking classes.

### **OB-3 Cooperative Services with Sandy Fire District – Assistant Chief Steve Deters**

AC Deters shared a slide showing points of the cost-neutral contract for service with Sandy Fire. He said that he and Chief Browne presented this at the Sandy Fire Work Session on November 3. At the November 10 Sandy Fire Board Meeting, the Sandy Board officially asked CFD to present a contract for service. AC Deters is asking for the Board to approve CFD staff drafting a contract for service for Sandy Fire.

Director Syring said that Sandy Fire continues to be a great partner. He listed a number of positive points that would be mutually beneficial to both districts and their citizens, including staffing of Station 18. Both districts paid for the feasibility study that recommended a full contract for service. He would support CFD staff moving forward with putting together this contract.

Director Cross commented that at one point, there were some financial discrepancies between the numbers that the feasibility consultant had and what Sandy Fire reported. Chief Browne said that Sandy Fire sent updated information to the consultant. The confusion was with the way Sandy Fire budgeted, but the funds are there. CFO Whitaker also analyzed Sandy Fire's budget and he confirmed that Sandy Fire would have enough funds to cover the proposed contract for service.

Director Joseph asked if the D-shift schedule starting in January would affect the contracts for service. Chief Browne confirmed that those with contracts for service would also be in the D-shift schedule.

Director Syring asked if the feasibility study was completed and released to the public. AC Deters said the feasibility study was on both the CFD and SFD websites for the public to view.

President Wall expressed concerns about if this contract would truly be cost-neutral. Sandy Fire cannot currently afford to staff all its stations, yet with this contract, they will get full staffing plus enhanced services. There should be no subsidies for Sandy. CFO Whitaker agreed. He is not interested in subsidizing Sandy and that's why he did the financial analysis. They will only be staffing one station with career staff. There will be a 24/7 three-person engine, and a two-person lighter resource that's only staffed 12 hours per day. He has also considered the lost revenue from staffing Station 18 once their contract for service starts. Chief Browne noted that the other

# Clackamas Fire District #1

two stations would be staffed with volunteers. President Wall suggested that, in the interest of transparency, CFO Whitaker's financial analysis should go out with the draft contract.

Director Hawes said he would support going forward with a draft contract. He sees the efficiencies that could be possible.

Chief Browne, as he was hearing a consensus, proposed having a work session to go over the draft contract.

## VIII. INFORMATIONAL ONLY

### A. Division/Department Reports

#### R-1a Office of the Fire Chief – Fire Chief Nick Browne

Chief Browne thanked staff for all their hard work at the two community forums. There were also many community events held in October and it's great to get back into the community.

He shared that on October 31, there was a two-alarm commercial fire. The fire was well-involved, and crews had the fire under control in 45 minutes. The officers called the second alarm early and this prevented further property loss.

Director Cross brought up that at the OFDDA conference, the OSFM did a presentation on wildfire and the acres they've burned over the decades. Chief Browne said that from 1992 – 2001, there were about 107,000 acres burned across the state annually. From 2002-2011, there was an average of 360,000 acres burned across the state annually. From 2012 – 2021, there were 760,000 acres burned annually. Projections for the next 10 years estimate that it will be 1.4-1.5 million acres burned annually. These projections and weather patterns show that wildfires will not be a fluke; they will be happening. Chief Browne said that preparation is imperative for CFD moving forward.

Director Joseph wanted to make sure Christ the King Elementary School, St. John the Baptist School, and La Salle High School are included in the CPR classes.

#### R-1b Office of Strategic Services – Assistant Chief Brian Stewart

AC Stewart shared that the SDAO conference is February 9-12, 2023.

He pointed out that the strategic planning goals are now included in the Fire Chief's report as a pie chart. This is to increase transparency and accountability.

# Clackamas Fire District #1

He shared that Operations identified a connectivity issue with the apparatus at Station 19. There was a dead spot of Verizon coverage, so they worked with Cradlepoint to get a unit installed to work on that issue.

The Gladstone Station 22 remodel was complete.

## **R-1c Office of Business Services – Assistant Chief Steve Deters**

AC Deters shared that Health & Safety Chief Heather Goodrich will give a Health & Safety Division update.

Health & Safety Chief Goodrich shared that in 2022, they are still 100% compliant with their physicals. Due to Covid, many departments had to pause their services, so this is a big accomplishment. Wellness also resumed their on-site group activities of group fitness testing and wellness talks.

She explained how the Wellness Department added several individual assessments for the line staff in 2022, such as adding a 10-year risk score to the pre-physical test which will identify members that are at a higher risk for heart disease. She also explained that personnel got individual feedback regarding their assessments and direction on how to improve.

In 2023, the Wellness Department is researching adding deeper cardiac testing, deeper lipid testing, and ultrasound testing for cardiac, liver, thyroid, and groin. They will also be hiring a new athletic trainer. A group of peer supporters will also be receiving additional training in 2023.

President Wall asked if she foresees a resurgence of Covid or a variant of Covid affecting staff and what she is doing to prepare. H&S Chief Goodrich said that she has not seen it in the District. She follows Oregon Health Authority closely and is prepared to pivot if needed.

Director Cross added that Clackamas County, as well as other areas, is dealing with an epidemic of RSV. They also predict that this will be one of the worst seasons for influenza on record.

For Community Services, Division Chief (DC) Whiteley gave an update on Operation Santa. He shared that there will be four community parades where no donations will be picked up. They will direct citizens to take donations to the five scheduled drop-off events. The District will be working with other community partners who will distribute the donations.

## **R-1d Office of Financial Services – Chief Financial Officer Mark Whitaker**

CFO Whitaker said that the District was the victim of a fraud attempt. Fortunately, the funds were retrieved, and he thanked Administrative Technician Golloher and Finance Manager Wong

# Clackamas Fire District #1

for their quick work. The Finance team will be implementing new financial procedures and working with an IT security firm through insurance to prevent this in the future.

He shared that they continue to work with the new auditing firm, which was on site recently. It's likely they will ask for an extension past the December 31 deadline.

CFO Whitaker highlighted that in his financial report, he noted that CFD did not need to use the Tax Anticipation Notes (TANs) this year. He also said that the new PERS rates will take effect July 1.

Director Hawes noted that overtime is at 42.4% when they are only 33% into the year. Do they know why? CFO Whitaker explained that overtime usage is higher than he anticipated in the adopted budget. The number of floaters available is less than expected. He said that he needs to rethink how he budgets overtime. He underestimated it this year. Chief Browne added that due to conflagrations, they will be getting reimbursed for some of that overtime. He also said that this is a job where personnel can get injured and currently there are a lot of personnel out with injuries, which is difficult to forecast.

## **R-1e Office of Emergency Services – Division Chief Rick Huffman**

DC Huffman reported that it's been significantly busy over the last few months and crews continue to do a great job. He announced that they hired a new Training Captain and an EMS Captain.

DC Huffman also noted that the Gladstone Fire station renovation was completed, and the crew is operating out of it now. The previous station was not designed for 24/7 response and he is excited for this station to be operational.

## **R-1f Professional Firefighters of Clackamas County Local 1159 – Shop Steward Andrew Gordian**

Shop Steward Gordian was working on shift and got a call so was, therefore, unable to give an update.

## **R-1g Volunteer Association Report – Volunteer Coordinator Ryan Kragero and President Jerry Kearney**

Volunteer Coordinator (VC) Kragero shared the volunteer shift coverage and training for the month of October. He explained that the coverage was low because CFD's excellent volunteers get hired for career jobs both internally and externally. They are struggling with having the number of people needed for coverage. They have a new volunteer academy starting in January.

Director Syring congratulated VC Kragero on his new position.

# Clackamas Fire District #1

President Kearney shared that they had a Halloween party at Station 18. He also shared that volunteer Jack Tanz works a lot with the Milwaukie CERT program. He wanted to thank him for all his work this past month as Jack helped with eight events and gave a presentation.

## **B. Correspondence**

Noted.

## **C. Informational Items**

Noted.

## **D. Next Meeting**

The next Board of Directors' meeting will be on Monday, December 19, 2022, at 5:00 pm. The meeting will be hybrid with the public invited to attend either by remote video conferencing or in person at Station 5 (9339 SE Causey Ave., Happy Valley, OR 97086).

## **VIII. ADJOURNMENT**

The regular Board of Directors' meeting adjourned at 6:53 pm.

Minutes recorded by Executive Assistant Ariel Roberts and prepared by Administrative Technician Jessamyn Ode.

---

**President Marilyn Wall**

---

**Secretary Chris Hawes**

## Memo

<b>To</b>	Board of Directors
<b>From</b>	Chief Financial Officer Mark Whitaker
<b>Date</b>	December 19, 2022
<b>Subject</b>	Property/Casualty Insurance Renewal for 2022

### Action Requested

Staff requests Board of Directors approval of Property/Casualty Insurance with Special Districts Insurance Services (SDIS) for 2023.

### Background

The District is currently insured through SDIS for auto, property, and liability coverage. The proposal will continue this coverage for calendar year 2023. Staff have reviewed the coverage for specific apparatus and buildings, and made adjustments in value as appropriate for age and condition. The renewal rates are within the District's budgeted projections.

Jeff Griffin, our insurance agent from WHA, will be present at the Board meeting to provide further details.

### Board Policy Implications

It is worth noting that the annual renewal of property and liability insurance does not appear to require Board approval under the District's Purchasing Policy. Section I.C states:

Purchases and contracts that are not subject to competitive solicitation requirements, including extended personal services contracts or those entered into or extended by direct appointment, and that are within budgeted parameters may be executed without further approval by the Board. These items include, but are not limited to employee insurance, including workers' compensation, medical, dental, or life; taxes and PERS payments; investment purchases as authorized by Board policy or other adopted investment policies; payments on personal services contracts within contracted amounts for legal and medical supervision services, dispatch, data, and video and voice connectivity; and property and liability insurance purchases.

We have brought this item for Board approval as a matter of transparency and to continue Board past practice.

### Budget Implications

The FY 2022-23 Adopted Budget included an assumption that property and liability insurance would increase by 8%. The preliminary coverage quote of \$310,931 represents an increase of 13.6%, exceeding the budget by approximately \$15,300. This difference will be absorbed by savings in other areas or—as the insurance coverage

spans two fiscal years—be covered with a higher budgeted amount in FY 2023-24. The coverage also provides an offsetting longevity credit of \$21,555, which is included as revenue in the Adopted Budget.

Recommendation and Why

Staff recommends approval of the property/casualty insurance with Special Districts Insurance Services.

## Memo

<b>To</b>	Board of Directors
<b>From</b>	Finance Manager Michael Wong on behalf of Battalion Chief Brent Olson
<b>Date</b>	December 19, 2022
<b>Subject</b>	Special Procurement for Simulation Table

### Action Requested

Staff requests Board of Directors **(Acting as the District's Local Contract Review Board under ORS 279A.060)** approval for a special procurement of a simulation table in the amount of \$89,260 from Simtable LLC.

### Background

The District was awarded \$97,069 in grant funding from Oregon Department of Emergency Management (OEM). The grant allows for the purchase of the simulation table hardware, software, and training. To our knowledge, and to the knowledge of Simtable LLC, there is no other company that makes a similar or competing product that would meet the District's requirements. OEM is supportive of a special procurement method for this grant purchase. In further consultation with the state's Procurement Services, it was also recommended to utilize the special procurement method.

### Board Policy Implications

The District's procurement policy authorizes the Board **(Acting as Local Contract Review Board)** to exempt certain procurements of goods and services from competitive bidding according to the special procurement procedures described in ORS 279B.085. This requested special procurement meets the requirements of ORS 279B.085 and OAR 137-047-0285 because (1) *it is unlikely to encourage favoritism or substantially diminish competition* as there are no known comparable products available on the market, and (2) *it is expected to promote the public interest* due to the benefits the simulation table would provide to the community and cooperating agencies.

### Budget Implications

This purchase will be fully grant funded and will not affect the District's General Fund. There is no cost match requirement for this grant.

### Recommendation and Why

Staff recommends approval of this special procurement. If approved, the District will issue a Public Notice **on Oregon Buys in one newspaper of general circulation** for a period of seven (7) calendar days. If no protests are received, the District will proceed with issuing the purchase order for the purchase.

Attached are the following documents: Request for Special Procurement form, quotation, and Notice of Special Procurement.

*Here for you*

CLACKAMAS FIRE DISTRICT #1

## REQUEST FOR SPECIAL PROCUREMENT #S-2023-001

1. **Requesting Department:** Operations
2. **Date of Request:** 12/19/2022
3. **Contact Name:** Battalion Chief Brent Olson
4. **Time Period Requested:** From: 12/20/22 To: 2/20/23
5. **Total Estimated Cost:** \$89,260 (Quotation attached)
6. **Funding:** Clackamas Fire District #1 was awarded \$97,069 in grant funding from Oregon Department of Emergency Management (OEM) for the purchase of a simulation table and associated training costs. There is no cost match requirement for this grant.
7. **Title: Supplies and/or Services to be Acquired:** Simtable Hardware, Software, Support, and Training – including:
  - Hardware:**
    - a) (2) Simtable Head Units
      - i. Including but not limited to computer, projector, camera, cabling, travel case
    - b) (2) Simtable Sandtables
      - i. Including but not limited to travel case, table medium
  - Software:**
    - a) (10) Licenses for AnySurface Interface Software for Simtable
    - b) (10) Licenses AnyHazard Wildfire and Emergency Management Software
  - Support:**
    - a) (10) Perpetual maintenance, support, and hosting
  - Training:**
    - a) (3) Virtual training session deliveries
8. **Request:** The District is requesting the Simtable platform to provide both a virtual and physical training environment that employs real-time analytics that can integrate existing District resources for a wide assortment of potential hazards. This training environment can accurately model wildfire, flood, hazardous material migration, and public evacuation as it relates to natural disasters. As an all-hazard agency, fire district employees are front-line responders that need to be prepared for a wide array of natural disaster scenarios and real time simulation training that can model actual fire district topography is a critical need. Simtable will also be utilized to provide outreach to community members in regard to home and property risk to wildfire. The interactive mapping can also run simulations that can illustrate to citizens the positive impact of fuels reduction and home hardening techniques on their actual residences if a wildfire were to occur.
9. **Background:** The Simtable platform will be utilized by both the Training department and the Wildland Fire Management program to deliver real world training simulations based on actual in district/county locations to all parts of organization. This simulation training can be tailored to meet different aspects of the organization such as our Hazardous Materials Team, CERT, Wildland Fire Response, Water Rescue as well as non-response components such as Logistics, Communications, and Finance. Realistic scenarios draw in and engage personnel in

*Here for you*

CLACKAMAS FIRE DISTRICT #1

an interactive environment where both small- and large-scale events can exercise different functional aspects of the organization. In addition to preparing Fire District personnel, this asset can also be utilized with Clackamas Emergency Management and other agencies to build relationships, efficiency, and resiliency through simulation training. This modeling software can help identify where mitigation efforts are most likely to be successful prior to an event taking place.

**10. Proposed Contracting Procedure:**

- a) In conformance with Oregon Administrative Rule ("OAR") **425-247-0287-137-047-0285 and Oregon Revised Statutes ("ORS") 279B.085**, the District will issue a Public Notice of the approved Special Procurement request **on Oregon Buys- in one newspaper of general circulation** for a period of seven (7) calendar days.
- b) The Public Notice will include provisions that any affected party may protest the approval of this Special Procurement request.
- c) The District will respond to and resolve all protest(s), if any.
- d) If no protests to this Special Procurement request are received or sustained, The District will proceed with negotiating and issuing the Contract.

**11. Justification for use of Special Procurement:** Simtable's proprietary software combines GIS data with next-generation, agent-based modeling and ambient computing that can provide customized modeling of communities and populations within Clackamas County. This allows for a truly interactive experience in all-hazards simulation across the county. Beyond training, Simtable also allows for real-time situational awareness during unfolding incidents on its projection mapped sand table. This platform can also be used to model where wildfires and other natural disasters would be most likely to move across the landscape given certain environmental inputs, once an incident starts. Unlike other products that utilize virtual reality software, Simtable is not projected in a theoretical space, but rather it utilizes the actual topography and fuel modeling of Clackamas County. An infinite number of simulations and projections can be run for wildfires, floods, hazardous material releases and other such events by simply changing different environmental inputs or locations.

Proprietary functions of the Simtable which are required by the District include:

- a) Active Pixel Projection System This system provides a fully integrated system comprised of a dedicated computer, projector, and camera sensor. Coupled with Simtable's AnySurface software, the system provides ambient computing capability in which a projected interface may be operated without the use of keyboards or mice. The projection system must be fully adapted and designed for seamless use with the AnySurface modeling software as a requirement by the District.
- b) AnySurface This software enables projected computer interfaces to be operated by use of ambient devices such as laser pointers, motion and or other remote devices (e.g. tablets, smart phones etc.). The Simtable is primarily operated by means of laser pointer which acts as an ambient mouse input upon the projected interface. The AnySurface software is required component due to its integration of ambient devices as well as it's ability to be used across multiple display platforms.
- c) Agent-Based Modeling Simtable's agent-based modeling capabilities are the only custom models that allows for real-time, dynamic inputs which allow the modeling behavior to be altered during simulation and in real-time, this ability is a required component for District procurement. For instance, the operator may alter the behavioral inputs that affect the models result without stopping the simulation or re-running it again. Personnel may alter the behavior of a simulation

*Here for you*

CLACKAMAS FIRE DISTRICT #1

(fire, flood, hazmat plume and traffic evacuation) by changing the inputs (weather, terrain, biological and ecological assets, etc.) in real-time. Simulated resources and interactive methodologies may also be placed and moved in order to simulate the effects of mitigation practices and outcomes.

- d) Mobile Device Integration This capability provides mobile device interaction allowing for 3D view movement and rotation, KML layer switching, map loading and selection of images and video on Simtable views and interfaces. Also allows for synchronized view of simulations on tablets and phones. These systems allow for a flexible training delivery to all members across the organization as well as the ability to easily integrate outside persons and agencies in training events. Multiplatform integration, to both internal and external stakeholders is a required component for District procurement.

12. **Findings to Satisfy the Required Standards:** The proposed special procurement:

X (a) Is unlikely to encourage favoritism in the awarding of public contracts or to substantially diminish competition for public contracts because:

- The Simtable, AnySurface, Agent-Based Modeling, and Mobile Device Integration technologies are the only products to fully meet the District's simulation table hardware and software requirements.
- Simtable LLC is the sole manufacturer and seller of the technologies listed above.
- Simtable LLC is the only company that can provide the total package: hardware, software, support, training.

and

\_\_\_ (b)(A) Is reasonably expected to result in substantial cost savings to the contracting agency or to the public

or

X (b)(B) Otherwise substantially promotes the public interest in a manner that could not practicably be realized by complying with requirements that are applicable under ORS 279B.055, 279B.060, 279B.065 or 279B.070 or under any rules adopted thereunder.

- The Simtable will provide custom modeling of communities and populations within Clackamas County which will aid with trainings and actual incident response. This will better protect CFD1 firefighters and the communities they serve.
- The Simtable will assist with community outreach for those living near the Wildland Urban Interface (WUI). The Simtable can illustrate to citizens the positive impact of fuels reduction and home hardening techniques on their actual residences if a wildfire were to occur
- The Simtable can also be utilized with Clackamas Emergency Management and other agencies to build relationships, efficiency, and resiliency through simulation training.
- The agent-based modeling that Simtable package provides may aid in modeling of multiple natural and manmade disasters in real time to better assist first responders in the mitigation of those incidents.
- Simtable modeling serves the public interest by forecasting potential public evacuation areas, and event progression given time and environmental inputs.

CLACKAMAS FIRE DISTRICT #1

## STATUTORY AND RULE AUTHORITY

ORS 279B.085(2) states the local contract review board (CFD1 Board of Directors **acts as the District's local contract review board under ORS 279A.060**) may approve a special procurement if the Board finds that a written request submitted under ORS 279B.085(4) demonstrates that the use of a special procurement as described in the request, or an alternative procedure prescribed by the Board will:

- a) Is unlikely to encourage favoritism in the awarding of public contracts or to substantially diminish competition for public contracts; and
- b) (A) Is reasonably expected to result in substantial cost savings to the contracting agency or to the public; or  
(B) Otherwise substantially promotes the public interest in a manner that could not practicably be realized by complying with requirements that are applicable under ORS 279B.055 (Competitive sealed bidding), 279B.060 (Competitive sealed proposals), 279B.065 (Small procurements) or 279B.070 (Intermediate procurements) or under any rules adopted thereunder.

In conformance with OAR 137-047-0285, the District will post Public Notice **on OregonBuys in one newspaper of general circulation**. The Special Procurement may not be used until after the completion of the seven (7) day notice period.

**APPROVED** by Clackamas Fire District #1 Board of Directors, **acting as the District's Local Contract Review Board under ORS 279A.060**, on \_\_\_\_\_.

## PUBLIC NOTICE FOR SPECIAL PROCUREMENT #S-2023-001

Clackamas Fire District #1 hereby provides public notice of the approval of Special Procurement #S-2023-001 for the acquisition of Simtable Head Units, Simtable Sandtables, Hardware, Software, Support, and Trainings.

**This is not an opportunity to submit a proposal.** This notice is pursuant to Oregon Revised Statutes (ORS) 279B.085 (5) and 279B.400 and Oregon Administrative Rules (OAR) [125-247-0287](#), [125-247-0700](#) [137-047-0285](#) and [137-047-0700](#). Any affected person may protest the approval of the Special Procurement.

An affected person must deliver a written protest via email to the Clackamas Fire District #1 Finance Manager within seven (7) calendar days after the first date of this public notice.

The written protest must include:

1. A detailed statement of the legal and factual grounds for the protest;
2. A description of the resulting harm to the affected person; and
3. The relief requested.

A protest must be clearly labeled and include the Special Procurement number. Protests must be delivered to the **Clackamas Fire District #1 Finance Manager** within the seven (7) calendar days by email at the following:

### Email

Subject Line: **Protest of Special Procurement # S-2023-001**

## Memo

<b>To</b>	Board of Directors
<b>From</b>	Clackamas Emergency Services Foundation President Jerry Kearney
<b>Date</b>	December 19, 2022
<b>Subject</b>	Foundation Bylaw Change

### Action Requested

The Executive Committee of the Clackamas Emergency Services Foundation respectfully requests that the following change be made to Article III 3.2e of the bylaws of the Clackamas Emergency Services Foundation. This change is being requested by the Committee with the full knowledge and agreement of Chief Nick Browne.

Article III 3.2e currently reads: "The Fire Chief of Clackamas Fire District #1 shall be a voting Ex Officio."

The requested change is: "The Fire Chief of Clackamas Fire District #1, or their delegate, shall be a voting Ex Officio."

## Memo

<b>To</b>	Board of Directors
<b>From</b>	Clackamas Emergency Services Foundation President Jerry Kearney
<b>Date</b>	December 19, 2022
<b>Subject</b>	Foundation Trustee Status Changes

### Action Requested

The Clackamas Emergency Services Foundation requests Board approval of Foundation trustee status changes, as outlined below.

The Board of Trustees respectfully requests that the following members be removed as trustees. The lack of attendance from these individuals has prevented the Foundation from having a quorum, and thus hindered the Foundation's ability to conduct business.

- Angela Fox. Multiple attempts have been made to contact her, with no response. She has not been present at Foundation meetings for several months.
- Ed Mura. Resigned as trustee via email.
- James Rhodes. Multiple attempts have been made to contact him, with little response. He has not been present at Foundation meetings since his resignation from CCSO last spring.
- Alex Roth. Resigned as trustee via email.

The Board of Trustees respectfully requests that the terms of the following trustees be renewed:

- Ron Gladney, term expired March 2022
- Sherri Magdlin, term expired March 2022
- Sherie Rosenbaum, term expired March 2022
- Don Trotter, term expired March 2022

Per his request, the Board of Trustees respectfully requests that Kyle Gorman be made an Honorary Trustee.

# FIRE CHIEF'S REPORT

November 2022

**Community Forum on November 9 at Station 10**  
L to R: PIO Hamilton, Director Hawes, AC Deters,  
Chief Browne, DC Mulick, and BC B. Olson

**The November 30th Operation Santa Parade**  
staff and volunteer crew

## Highlights

- The District was awarded \$5,000 matching funds from the 2022-23 SDIS Safety & Security Grant. These funds will match the district cost of \$5,000 for the purchase of \$10,000 of security camera systems at District facilities.
- Wellness Specialist McVicker presented on-site to the firefighter crews on behavioral health. Resources were shared about post-pandemic health - specifically alcohol use, reminder of normal signs/symptoms of stress, and how to take care of themselves.
- Staff facilitated and coordinated two community events regarding the potential levy. Additionally, staff worked with the consulting firm regarding these events, distribution documents, and social media postings.
- Finance Specialist Halee Holst completed all reimbursement requests to OSFM for this year's conflagration deployments. Total District reimbursement is just over \$1.1 million

## Notable Events/Calls

- November 20<sup>th</sup>: HazMat 307 responded on its first deployment in partnership with OSFM Team 3. Crews responded to Grass Valley Oregon where they assisted on a commercial fire with a 2,800 gallon Heptane tank.
- November 15<sup>th</sup>: Crews responded to a residential fire at Shadowbrook Mobile Home Park with an imminent rescue. Crews immediately located the victim and began resuscitation efforts. Due to the extent of the injuries, crews were unable to save the resident.
- Operations Highlight: Battalion Chiefs Ted Willard, Chris Taylor, Tyson Lowther and Captains Curtis Gutman, Steve Sakaguchi, Shawn Mullen and Sam McCullough attended a fire ground Strategy and Tactics Class taught by Anthony Kastros. Outstanding job stepping into the leadership role!

## CLACKAMAS FIRE WANTS YOUR INPUT!!

News Release from **Clackamas Fire Dist. #1**

*Posted on FlashAlert: November 9th, 2022 12:38 PM*

Clackamas Fire has established an initial set of staffing and operational priorities which would be funded through the levy, including hiring additional firefighters to provide four-person staffing in most stations, full-time staffing of rural fire stations (Logan and Clarkes), and implement an alternative response model which includes lighter resources to improve response efficiency in high-volume service areas. It would also provide funding for equipment critical to emergency and wildfire response.

You can come be a part of one of our three public forums:

## CLACKAMAS FIRE LAUNCHES ANNUAL OPERATION SANTA CLAUS (PHOTO)

News Release from **Clackamas Fire Dist. #1**

*Posted on FlashAlert: November 25th, 2022 8:00 AM*

Downloadable file: [Santa riding on the engine](#)

Clackamas Fire proudly announces the 2022 Operation Santa Claus toy and food drive. The program is organized by volunteer and employees and has been a mainstay within the community for more than 48 years. The season kicks off on Nov. 30 with Santa riding in a fire engine at four neighborhood parades. Different than previous years, donations will not be accepted during the parades.

The goal is to collect non-perishable food and new, unwrapped toys for families in need during the holidays. While the goal is the same as it has been for the last 48 years, the strategy to collect donations has shifted due to the pandemic. Clackamas Fire will be hosting five donation drop-off events throughout the fire district from Dec. 3-11. In addition, Clackamas Fire is discouraging community members from dropping off donations at any of their community fire stations this year.

In 2021, more than 8,000 pounds of food and 3,000 toys were distributed.

“As we look towards the holiday season, our focus is on hope, charity, and serving others. We know some families are struggling, and the need is as great as ever,” said Fire Chief Nick Browne. “Clackamas Fire’s Operation Santa Claus is an excellent opportunity to come together as a community to help those in need.”

Donations can be made a couple of ways:

- Accepting donations at five drop-off events from Dec. 3-11. For a complete list of locations and dates, [click here](#).
- Accepting funds by mail. Checks can be made out to the “Clackamas Emergency Services Foundation,” noting “Operation Santa” on the memo line, and mailed to Clackamas Fire, c/o: Clackamas Emergency Services Foundation, 11300 SE Fuller Road, Milwaukie, OR 97222. The non-profit organization is associated with Clackamas Fire and other first responder agencies in Clackamas County.

For more information about Operation Santa Claus, donation drop-off events, and non-donation collection parades, visit [www.clackamasfire.com/operation-santa/](http://www.clackamasfire.com/operation-santa/).
